Art Unit: 3624

DETAILED ACTION

1. Claims 1-62 have been examined.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 1-62 are rejected under 35 USC 103(a) as unpatentable over Howorka(US Pat. No: 6,282,521) in view of May(US Pat No: 6,317,727).
- 4. As per claims 1-62 Howorka teaches an anonymous trading system for trading instruments between trading parties(Abstract)(Figs 1-4). Howorka further teaches a plurality of order input devices connected to the communications network(Fig 1)(col 3 lines 30-46) and at least one matching engine connected to the network for matching bids and offers(col 3 line 59-col 4 line 34)(col 4 lines 10-16)(Fig 3) and a market distribution means for distributing orders to the trades(Fig 2)(Fig 3). Howorka does not specifically teach a credit monitoring system for counterparties. May teaches a credit monitoring system in an electronic trading system for determining counterparty suitability for trading(Abstract)(Figs 1-34)(col 5 line 40-col 7 line 29) and which may be applied to financial instruments(Fig 18) which also includes a market entry interface(Fig 12) and which may include a wide variety of financiasl instruments including

Application/Control Number: 09/603514 Page 3

Art Unit: 3624

derivatives(col 8 line 62-col 9 line 5) as well as term negitiations(col 10 lines 18-22) and currency trades(col 19 line 28-col 20 line 26)(col 21 lines 50-53) and trade netting (col 21 lines 47-49). It would have been obvious to one skilled in the art at the time of the invention to combine Howorka in view of May to teach the applicant's disclosure. May further teaches a credit limit storage means(Fig 3) and a credit performance module(Fig 3/76). The motivation to combine is to teach an anonymous electronic trading system for anonymous trade credit screening as enunciated by May(col 5 lines 32-37).

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-62 are rejected furthermore under 35 USC 112(2nd) for failing to point out and particularly claim what applicant regards is the invention,. The claims are far too broad to provide insight into the novelty of the disclosure.

Conclusion

- 7. THIS ACTION IS MADE NON-FINAL.
- 8. Any questions concerning this communication should be addressed to the primary examiner of record, Dr. Geoffrey Akers, P.E., who can be reached between 6:30 AM and 5:00 PM Monday through Friday at 703-306-5844. If attempts to contact the primary examiner are

Art Unit: 3624

unsuccessful, the primary examiner's superior, Mr. Vincent Millin, SPE, may be telephoned at (703)-308-1065.

The fax number for Formal or Official faxes and Draft or Informal faxes to Technology Center 3600 or this Art Unit is (703)-308-3687. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703)-308-1113.
